

Increase 40kg by 20%

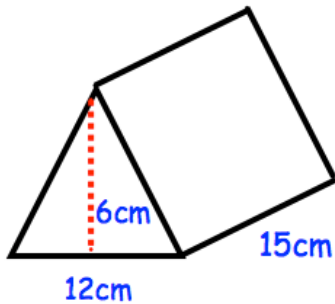

A ferry leaves a port every 15 minutes,
starting at 09:00

The last ferry leaves at 16:30

How many times does a ferry leave
the port during one day?

The n th term of a sequence is
 $n^2 - 1$

Work out the first 5 terms

Find the volume

Calculate the n th term of:

10 13 16 19

Find the 200th term.
