

Write down the cube root of 125

Work out

$$5^4$$

Work out

$$10^5$$

$$0.67 \quad \frac{5}{8} \quad \frac{4}{5} \quad 70\%$$

Write in order of size, starting with the smallest.

Luca and James share money in the ratio 2:7.

James receives £30 more than Luca.

How much does James receive?

$$\text{Estimate } \underline{98.7 \times 3.05}$$
$$0.497$$
