

Write down the letters of two congruent triangles.

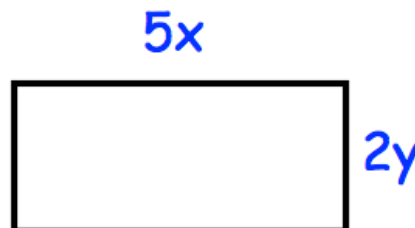

George is going on holiday to Poland

George changes £565 into Zloty.
The exchange rate is £1 = 5 Zloty

Work out how many Zloty George gets
for £565.

Find the lowest common multiple (LCM)
of 25 and 30

Find an expression for the area of the
rectangle.

Ranjit drives 110 miles to the hotel.
His journey takes $2\frac{1}{2}$ hours.

Work out his average speed.
