Simplify

25 : 10

$$5 : 2$$

Simplify

36 : 42

$$6 : 7$$

Work out the lowest common multiple (LCM) of 12 and 30

12: 12 24 36 48 (60)

30: 30 (60)

Work out $5x + 3$ if $x = 14$

$$5 \times 14 = 70$$

$$70 + 3 = 73$$

Rotate the triangle, 90 degree anticlockwise about the origin.
