

Calculate the area of the triangle

$$\frac{1}{2} (12 \times 5) = 30 \text{ cm}^2$$

How many matches did the team play?

$$13 + 7 + 10 = 30$$

Increase \$5000 by 3%

$$\begin{aligned} 1\% &= \$50 \\ 3\% &= 50 \times 3 = \$150 \\ & \$5150 \end{aligned}$$

Decrease 600cm by 40%

$$\begin{aligned} 10\% &= 60 \\ 60 \times 4 &= 240 \text{ cm} \\ & 360 \text{ cm} \end{aligned}$$

Using the information that

$$3.9 \times 62 = 241.8$$

write down the value of  $3.9 \times 620$

$$2418$$

Write down the value of  $39 \times 0.62$

$$24.18$$

The flight from Perth to London is 16 hours and 35 minutes. The time in Perth is 7 hours ahead of London.

A flight leaves Perth at 8am on Wednesday. *1am London*

What is the time in London when the flight arrives?

$$17:35$$
