

If $150 \times 34 = 5100$

Use that information to work out:

15×34

510

300×34

10200

1.5×3.4

5.1

Each unit of gas costs 15p

How much was spent on gas between January and June?

$$\begin{array}{r} 7191 \\ - 6813 \\ \hline 378 \end{array}$$

meter reading

Jan 6813

June 7191

$$378 \times 15 = 5670$$

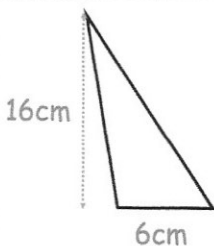

£56.70

Simplify $a \times a \times a \times a \times a$

a^5

Simplify $6a + 4a - a$

$9a$

Find the area of the triangle.

$$\frac{1}{2}(6) \times 16$$

$$3 \times 16 = 48 \text{ cm}^2$$

Work out

$$\begin{array}{r} 13.2 + 8.9 \\ \hline 2.3^2 \end{array}$$

4.177693762

4.2

Write your answer to 2 significant figures.
