

The diagram shows a fair spinner.

Mark the scale with an arrow to show the probability of landing on yellow.

Alison has £1.40
Scott has £2.90

How much should Scott give Alison so that they will have the same amount of money?

Here are the first five terms in a number sequence.

7 10 13 16 19

Write an expression, in terms of n , for the n th term of this number sequence.

Neve is playing a game.

She throws 8 balls at a target, one at a time.

Each hit is worth 5 points.
Each miss is worth -3 points.

Neve hits the target with 5 of the balls and misses with the rest.

How many points does Neve score?

Chris also throws 8 balls at the target.
His final score is 0.

How many times does he hit the target?
