

Work out

$$3^3 - 4^2$$

Find the area of the triangle

£1 = 4.5 Polish zloty

Convert £20 into zloty

Convert 900 zloty into pounds

The number of goals scored in a season by seven players were:

48 32 0 62 11 21 43

Calculate the mean

An eighth player brings the mean goals scored up to 33. How many goals did he score?

One angle in an isosceles triangle is  $40^\circ$ .

Write down the sizes of the other two angles.

Write a different pair of possible angles.
