

If  $150 \times 34 = 5100$

Use that information to work out:

$15 \times 34$

$300 \times 34$

$1.5 \times 3.4$

Each unit of gas costs 15p

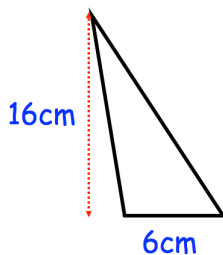

How much was spent on gas between January and June?

meter reading

Jan	6813
June	7191

Simplify  $a \times a \times a \times a \times a$

Simplify  $6a + 4a - a$

Find the area of the triangle.

Work out

$$\begin{array}{r} 13.2 + 8.9 \\ \hline 2.3^2 \end{array}$$

Write your answer to 2 significant figures.
