

Work out $72 \div 0.3$

A pack of 3 peppers cost £3.40

A pack of 4 peppers cost £4.08

Which pack is better value for money?

Write an expression for the perimeter of the rectangle.

$$4x + 3y$$

Henry and Arthur share £65 in the ratio 4 : 9

How much money does Arthur receive?

Solve

$$9(y + 3) = 45$$
