

Draw a shape with one line of symmetry

$$\begin{array}{r}
 3 \square 4 \\
 + 286 \\
 \hline
 \square 4 \square
 \end{array}$$

In a class of 30 students, 12 were late.

What fraction of the class were late?

What fraction of the class were **not late**?

How many seconds are in 12 minutes?

How many seconds are in 24 minutes?

The population of a country is 9 million.

Write 9 million in figures.
