

6th December

CorbettmOths

Amelia thinks of a positive number.

She squares it and then adds 19.

Her answer is 100. $100 - 19 = 81$

$$\sqrt{81} = 9$$

What was her original number?

$$9^2 = 81$$

$$81 + 19 = 100$$

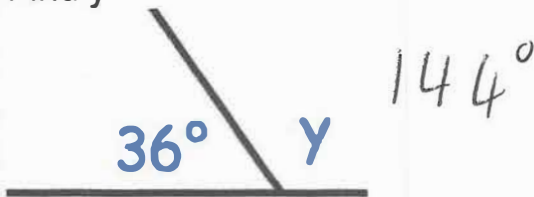

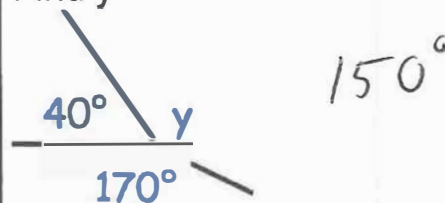

$$9$$

$$4 \div 10$$

$$0.4$$

$$18 \div 1000$$

$$0.018$$
