

Draw all lines of symmetry on the regular hexagon.

What is the order of rotational symmetry of the regular hexagon?

Draw a shape with order of rotational symmetry 1.

Show that when you multiply two **consecutive** numbers that the answer is always even.

Try three different examples.

90 people sit their driving tests over one week.

Complete the two-way table.

	Under 20 driving lessons	20 or over driving lessons	total
Pass		21	30
Fail	45		
total			90

Simplify

$$\frac{w^6}{w^4}$$
