

A company collected data about the number of internet enabled devices in each of 50 households.  
The table shows the results.

Number of devices	Number of households
0	1
1	1
2	2
3	4
4	9
5	13
6	10
7	7
8	3

Work out the total number of internet enabled devices in these 50 households

Calculate the mean number of internet enabled devices per household.

A hexagon-based pyramid has a height of 54cm.  
The volume of the pyramid is  $1080\text{cm}^3$ .  
Calculate the area of the base of the pyramid.

The number,  $c$ , has been truncated to one decimal place.

The answer is 5.8

Write down the error interval for  $c$ .

A line has gradient 7 and passes through the point (1, 5)

Find the equation of the line.
