

Solve the equation

$$20 - 4x = 2x + 8$$

Work out 6^{-2}

Work out the length of AB

Exchange Rates

£1 : \$1.55

£1 : €1.24

*Commission Charged

Finn goes to the Post Office to exchange money.

Finn changes \$651 and €161.20 into pounds sterling.

The Post Office deducts their commission and gives Finn £528.

What is the percentage commission?
