

Estimate the value of

$$\frac{7973 \times 3.04}{0.401}$$

Calculate length y

Work out

$$4\frac{1}{2} \div 1\frac{1}{3}$$

Solve

$$x^2 + 5x - 24 = 0$$

Solve the simultaneous equations

$$\begin{aligned}x + y &= 1 \\2x - y &= 11\end{aligned}$$
