

Solve

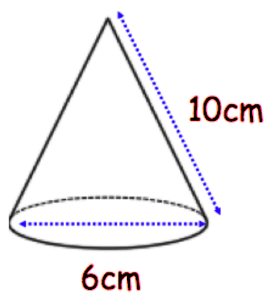

$$8(x - 2) - 3(1 - x) \leq 9(x + 2) + 1$$

Estimate the median mark.

Convert  $0.1\bar{3}\bar{9}$  to a fraction

The line passing through  $(1, p)$  and  $(5, 1)$   
has a gradient of  $\frac{3}{4}$

Find the value of  $p$ .

Calculate the volume of the cone.
