

Aoife truncates a number, y to 1 decimal place.

Her result is 3.8

Write down the error interval for y

Simplify

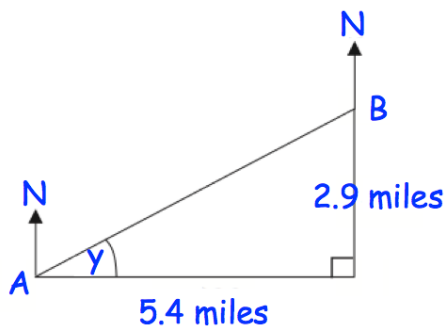

$$\frac{8x}{3y} \times \frac{y}{6}$$

Simplify

$$\frac{c}{9} \div \frac{5}{c}$$

A tree grows 22% each year.
When planted, it is 20cm tall.

How long will it take the tree to grow to at least a height of 5m?

Find the size of y .

Work out the bearing of B from A.

Work out the bearing of A from B.
