

Antoni is four years younger than Khalil.

Zander is two years younger than three times Khalil's age.

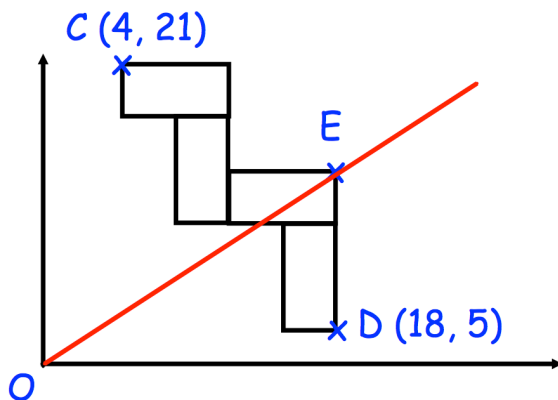

The mean of their ages is 13.

Work out the range of their ages.

Shown is a regular hexagon.

Write down the vector \vec{CG}

Find the area of each rectangle

Find the equation of the line passing through O and E.

Shown are four identical rectangles.

Make m the subject of

$$x = 4\pi m + am$$
