

Simplify $\sqrt{63}$

Yvonne truncates a number, y to 1 decimal place.

Her result is 2.7

Write down the error interval for y

Factorise

$$3y^2 - 10y + 3$$

Find where the lines $y = 2x - 5$ and $y = x$ cross.

A bag contains 6 yellow sweets and 6 blue sweets.

A sweet is taken out at random, it is replaced, and another is taken out.

Find the probability that at least one sweet is blue.
