

Write down the value of  $\cos x$   
Give your answer as fraction.

Simplify

$$\frac{3}{w} \times \frac{x}{4} \times \frac{y}{w}$$

Find the area of the parallelogram.

Complete the table of value for

$$y = \frac{4}{x}$$

x	0.5	1	2	4	8	10
y						

On the grid, draw the graph of

$$y = \frac{4}{x}$$

for  $0.5 \leq x \leq 10$
