

Work out  $9^{\frac{1}{2}}$

Simplify  $6x^0$

A coin is flipped three times.

What is the probability of getting exactly two tails?

Find x

Tahir has drawn a regular polygon.  
He says the exterior angle is  $14^\circ$

Explain why Tahir is incorrect.

Solve, to one decimal place,

$$5x^2 + 2x - 1 = 0$$
