

100 students guess the length of a line.
The lowest guess was 41mm and the highest guess was 89mm.

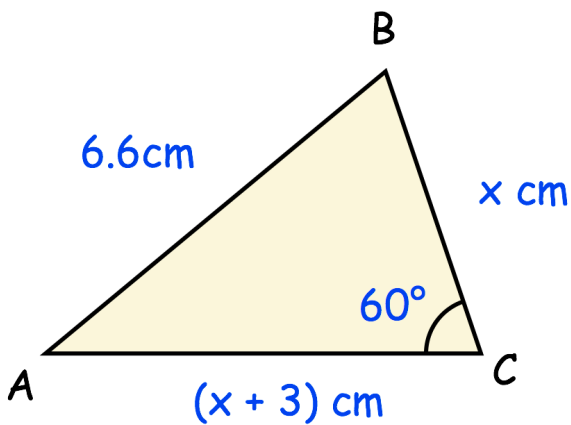

Complete the histogram

Work out an estimate for the mean of the guesses.

$$w^4 < 25 \quad \text{and} \quad 3y + w = 10$$

Find the possible range of values of y

Calculate the perimeter of ABC.
Give your answer to 1 decimal place.
