

Find x

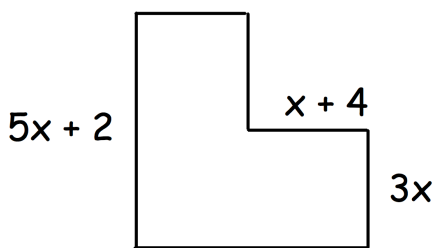

The cumulative frequency graph shows how much money 80 customers spent in Sofia's shop.

Sofia is going to give the 5% of customers who spent the most money, a free gift.

At least how much money would a customer have spent to be given a free gift?

$2x - 3$

Find an expression for the area of the L shape.

Shown is the graph of  $y = x^2 - 6x - 16$

Find the equation of its line of symmetry.
