

How to use the QR codes

In terms of the back of the revision card, you will find 3 QR codes that bring the learner to over 10 hours of videos and over 1000 questions and answers.

To use the QR codes to access the material, there are 2 ways in which you can do this:

- 1) For most phones and tablets, you can simply point your camera at the QR code. Once it recognises the QR code, it will display an icon to touch. This will bring you straight to the Corbettmaths resource.
- 2) On PCs/Macs etc, there may be apps/website that allow you to scan QR codes, however we also do have an eBook that can be downloaded direct to your phone/tablet/PC/Mac. Just contact us if you would like a copy.
