Corbettmaths

# Addition

Video 6

Video Tutorial

1) Lay out the addition in place value columns.

2) Start with the ones/units column.

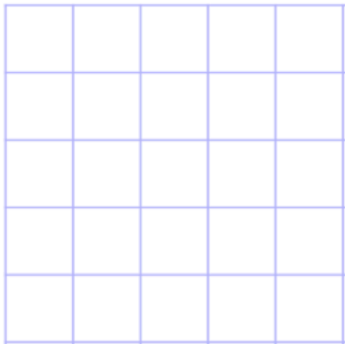

3) If the answer is 9 or less, write it down in the answer line.

4) If the answer is 10 or more, write down the ones/units digit in the answer line and write the digit from the tens in the next column to the left.

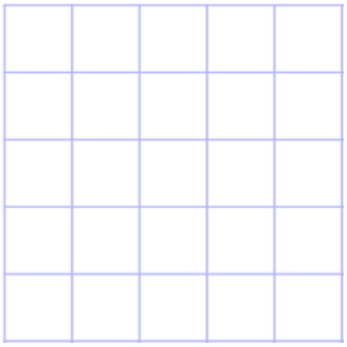

5) Move onto the next column and add up all the digits, including any extra digits that you have written.

6) Continue until you complete the addition.

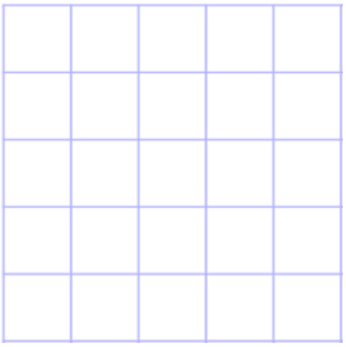

43 + 25 =

56 + 17 =

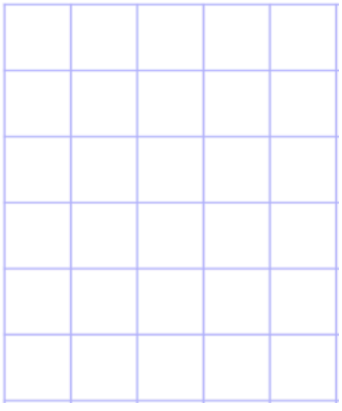

249 + 307 =

529 + 188 =

486 + 195 + 71 =
